Appeal is Made for Good Fri. Observance

On Friday, March 22, the world observes Good Friday.

It is the anniversary of Christ's death; when all Christians should realize that the First Good Friday meant reconciliation between God and His guilty creatures. All churches should do their part in showing proper respect for the day.

Many churches throughout the nation hold befitting services between the hours of 12 and 3 o'clock and business places in many cities and towns are closed during this period. "There can be no Easter Sunday without a Good Friday.." In a world today which seems to have abandoned God in many parts, the observance of Good Friday would have its good effects.

PRESTIGE OF ALLIES ON DECLINE

By J. B. WHITE

Fighting ceased today at 11 a. m. Finnish time on the blood stained Mannerheim where the Soviet army had pounded the small nation to surrender and the war in Finland was over.

Foreign Minister Tanner of the Finnish government, in a statement filled with sadness and defeat said: "Finland agrees because she is unable to continue against so great odds, and because we cannot rely upon the word of others."

This would seem to indicate that England and France, though coming forward with the statement that troops were ready after peace had been agreed upon, are accused by Finland of duplicity and lack of good faith.

Sweeden was blamed in the Allied capitals for the collapse of Finland.

The shadow of Adolph Hitler's Nazi empire fell across the Baltic today in the most signal victory of the war and not since the capitulation of France and England at Munich when Czecho Slovakia was sold down the river, has German power diplomacy scored so heaily against the democracies.

As the Finnish Parliament prepared to ratify the treaty of Moscow in which Finland was stripped of the Mannerheim line of defense, the entire isthmus of Carilion and the city of Viipuri and control of the Gulf of Finland, the world was taking off its hat to the Germans and their leader, Adolph Hitler.

The surrender of Finland was regarded in all countries as a triumph for Hitler and his friend Joseph Stalin. Conclusions were said to be forming fast in all capitals in small countries that England and France have no intention of aiding or even fulfilling their alliances with small countries.

The peace terms imposed on Fin-

EASTER SEAL SALE FOR CRIPPLED CHILDREN

Mrs. H. F. Smith, Jr., General Chairman of the Easter Seal Sale, said: "The Committee and I consider it a great honor and privilege to have charge of the Easter Seal Campaign in Milam County. The seals are tokens of good will for crippled children. And the sale, scheduled to begin soon, will give the general public an annual opportunity to help the crippled children."

This week we will review a few more Milam County cases which have received help already:

Case No. 1

A little five year old boy is clubfooted. He was sent to a Galveston hospital specializing in this type of work. He cannot be operated on until he is eight years of age, but he was fitted with corrective braces which he wears in his shoes. His case was discovered and supervised by the Milam County Health and Welfare Board.

Case No. 2

A little girl who was brought to the attention of our Board when she was six years of age, had suffered an attack of infantile paralysis, which had affected her right arm and left leg so that she was unable to walk. The Board furnished her transportation to and from Marlin, where a bone specialist fitted her leg with a brace. She now attends school and will soon be ready for the fitting of a new brace, so great has been her improvement.

Case No. 3

A high school boy, victim of infantile paralysis, as a small boy, was brought to the attention of the Board by Miss Jean Adams. He was taken to Marlin for an operation. Whereas formerly he could not participate in boys activities, nor in fact, in any manual activities, he has improved so much since his operation that he is now employed by a brace maker, thus earning a livelihoood and at the same time serving others who are themselves incapacitated.

These are three more of the 46 children who have received benefits from the crippled children's fund.

TELLS WELLES RIECH MUST RULE EUROPE

Adolf Hitler in a talk of one hour and 25 minutes with Under Secretary of State, Sumner Welles, Saturday morning in Berlin closed the door to peace negotiations by declaring flatly that Germany will not discuss peace nor will she enter into any negotiations for the settlement of the European war unless the settlement is in favor of Germany.

Germany demands the return of her colonies. Germany demands the dissolution of the British empire. Germany demands unrestricted and uncontested right to govern Europe in her own way. Germany demands the right to seize and to keep all territory and every economic and political advantage created by German hands anywhere in the world.

What the answer of England and France will be was conceded throughout the world. There will be no peace. Germany, it was believed is prepare to prosecute war, both vigorous and distructive.

Mr. Welles was due to leave Berlin possibly today or Sunday for London where he will talk with the British. From the English capital he will go to Paris and thence back to America.

Foreign Secretary Ribbenthrop told Mr. Welles that Germany is prepared to accomplish by force of arms all her aims and will do so, building a Germany empire to dominate Europe and the world if need be, to insure German expansion and destiny.

The conqest of Czecho Slovakia, Austria and Poland must stand says the German government.

Germany will not give up any of the territories she seized and in addition will move out on a military conquest againist England and France and by force of arms will take what she wants. This said Hitler, in effect, is the only answer he can and desires to give to any weakness suggested by peace negotiations.

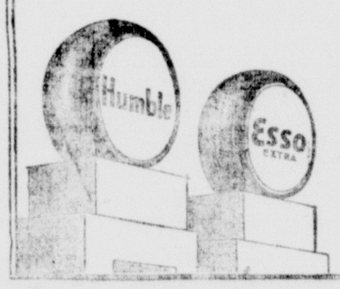
Again, A GAIN in Gasoline Quality



These two products of Humble's policy of continuous improvement will show you that *there is a difference in gasolines.* With a tankful of either, you will *notice* the superior performance of your car: improvements in Humble give you new heights of performance; Esso Extra is without an equal among motor fuels.

Humble

TODAY'S automobile engines must have a gasoline of high quality to give you the performance you expect. To fill that need, Humble has made improvements in this great gasoline which reach new heights of performance. Try it—see for yourself how improved quality results in improved performance.

Esso EXTRA

ESSO has always been a peerless motor fuel. Now it is so much improved, we call it Esso *Extra*—it gives you *extra* performance with every gallon.
We're enthusiastic about Esso Extra. When you try it, you will be, too. Fill up with this unequaled motor fuel today!

To Buyers in the Lower-Price Field

Humble offers you another product of its policy of continuous improvement in Thriftane, a leaded gasoline of specific quality at thrifty price.

HUMBLE technical men are constantly experimenting, in the laboratory and on the road, with improved products for your car. This constant research results in continuous improvement of the gasolines, motor oils and other products you get under the Humble sign. The process of improvement is so continuous that specific improvements frequently are made without public announcement. It is only when marked improvements are made, like the improvement in quality of these fine gasolines, that your special attention is called to them.

It all adds up to this: we promise you that you will find Humble products second to none, that you can depend on continuous improvement to keep the quality of Humble products up with, or a little ahead of, the performance built into your car.

OTTOMANS TOLD TO MAKE THEIR DECISION

By J. B. WHITE

The Democracies in Europe today were in a state of panic over the collapse of Finland.

Nazi Germany and Soviet Russia lost little time in taking advantage of the punch that sent Finland to the canvas and slugged down the prestige of the Anglo-French alliance.

A virtual ultimatum was dispatched to Turkey. The Turks must choose Between England and France on the one hand and Germany and Russia on the other. Ultimately the Dictator powers will carve Turkey out of the Allied pattern. Of this there was little doubt in the world to day as England and France were paying, as they have been paying for several years because of their failures and welching on alliances.

The French Senate met in secret session to consider the Finnish collapse.

Adolph Hitler has turned his attention to the Balkans.

A radio broadcast to the Daily Herald shortly before noon indicated that Germany will lose no time now that final proof has been given that England and France have no intention of waging war.

A dispatch from Bucharest said that all Rumania farmers have been called from their fields. The significance seemed to point to Rumanian resistance of agression from Russia and Germany. It will do her no good. Rumania would be crushed within 3 weeks, then would follow a campaign against Turkey.

Germany stood with Italy to prove British military incompetence in Ethiopia.

Again when Czecho Slovakia was betrayed at Munich the English and French were proven insincere. They declared were proven insincere. They Poland and by previous agreement handed over half the empire to Russia. They did exactly nothing to help Poland. Thus far neither have waged war on Germany.

When Russia invaded Finland the Anglo-French alliance was again brought into ridicule for its do nothing policy.

Today as the full shame of Finnish rape broke upon the sensibilities of the peoples of both countries, the press of both nations were flaming with indignation, criticism and anger. Responsible leaders were being lashed and there was growing feeling that eventually they will be driven from power.

With the war in Finland over the Daily Herald at first thought there would be little to report from day to day as it brings the latest happenings. Not so. Tomorrow perhaps, or the day after we may be chronicling the next big drive of the Dictator Powers.

It was a matter of days, even hours, for the next big grab. The Democracies are doomed—and so are the small countries of Europe.

Girls Are Advised To Build-Up For Relief

Lack of knowledge causes many a weak, undernourished girl a lot of suffering!

Many others, however, know how the headaches, nervousness, cramplike pain of *functional dysmenorrhea* due to malnutrition are helped by the proper use of CARDUI.

Some take it a few days before and during "the time," to help ease periodic distress. But CARDUI'S principal use is to help increase appetite; stimulate the flow of gastric juice; so aid digestion, assist in building up physical resistance and thus help reduce periodical distress. Women have used CARDUI for over 50 years.

WAR

(Continued from page 1)

land were much more severe than was first demanded by Russia before the start of the war in December. The treaty closed all possibilities of allied attack against Germany from the Baltic.

Not only did Germany score a victory by preserving her strength for a smashing blow in the west but England's prestige was falling to a low ebb among all neutrals.

In the British Parliament, Hore Belisha, the man who was deposed as war minister for advocating active aid to Finland, was unleashing a bitter tirade against the umbrella carrying pacifist Neville Chamberlain who was being held responsible in a large sense for the failure of allied resources to go to the aid of Finland.

On top of the victory for Dictator Powers in the Baltic through the Russian triumph, Germany and Italy announced an agreement for the sale of German coal for Italian industries. Thus Britain will lose the export of coal thought to have been arranged by a compromise on seizure of Italian ships.

to provide means through which he can improve his condition and in repayment therefor, can and will work with undimished energy for the welfare of the people who have elevated him to this office.

The office of County Treasurer is the place where all records of County finances are kept. To do this efficiently, experience is necessary and Mr. Devers, having held this office for a short time, feels that by reason of the close application of his talents and ability, has placed himself in position to render a better service in the future. It is a widely known fact that Mr. Devers has kept the records of his office in the efficient manner which he pledged to the people and by retaining efficient employes, has brought up the standards of effecinecy equal to that of any other department of the county government.

Mr. Devers plans as active campaign as time and his health will permit and hopes to see each voter to ask them for their support in the coming primary election, assuring each one that his debt of gratitude will be large and proposes to discharge it by rendering the service which his friends know his is well qualified to give.

Miles

(Continued from page 1)

County Superintendent, Mr. Miles states that he is a native Texan and grew up on a farm in Bosque County.

His educational training consists of graduation from the Valley Mills High School, San Marcos Teachers College, Baylor University and the University of Texas. He now holds a B. A. degree from Baylor University and an M. A. degree from the University of Texas, and membership in Mu Chapter of Phi Delta Kappa at the University of Texas.

His teaching experience consists of rural teaching in Bosque County, ward principalship at Cleburne and superintendencies at Mineola, Memphis and Rockdale. He has been superintendent at Rockdale for the past 12 years and during that time the school enrollment has increased from 525 to aproximately 800. Commercial and agricultural departments have been added to the curriculum of the school. Extra-curricula activities have been taken care of by the addition of a lighted football field and a beautiful gymnasium. With all these improvements and added expense, the Rockdale teachers have never had to discount a voucher or wait a minute for their money. Mr. Miles is an active member of the Y. M. B. L. and the Lions Club.

With this record as a school man and as a sound business executive, Mr. Miles announces his candidacy for the office of County Superintendent of Milam County. He feels that he is fully qualified to render the schools and the people of Milam County courteous and efficient service. He solicits your vote in the 1940 July Primaries.

CHRISTIAN SCIENCE SERVICES

"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 17.

The Golden Text is : "Holy, holy, holy, Lord God Almighty, which was, and is to come" (Revelation 4:8.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For all flesh is as grass, and all the glory of man as the flower of grass. The grass withereth, and the flower thereof falleth away: But the word of the Lord endureth for ever" (I Peter 1:24, 25.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit is the only substance and consciousness recognized by divine Science . . That matter is substantial or has life and sensation, is one of the false beliefs of mortals, and exisits only in a superstitious mortal consiciousness" rpage 278.)

LOCATED in all sections of Texas, **141** refineries manufacture into finished petroleum products **80** per cent of the State's crude oil production.

In contrast, Texas processes only **3** per cent of its cotton production and none of its wool or mohair.

Petroleum refining now constitutes **41** per cent of the value of all Texas manufactures.

Of the 225,000 Texans regularly employed by the oil business of the State, 25,000 skilled workmen and 5,000 office employees (a $50,000,000 annual payroll) are employed in this one division of our oil industry.

All of the Texas oil refined in our State, whether used in Texas or shipped to other states, paid last year in taxes an average of **9.8** cents per barrel.

Personal Mention

"Avoid using too bright a color and large flowers in wallpaper," says Miss Ethel Mae McCormick, Assistant Home Demonstration Agent at the Ben Arnold 4-H Club meeting March 7, 1940.

To have a pleasing view use colors that you can blend with any other color. Choose paper with a soft pleasing color. Cream is a very effective in any room. Paper with an all over design is less tiring to the eyes than large flowers are.

The girls drew names and they are to give presents to the one whose name they drew. A quilt top is to be made by the girls. Chances are to be sold at the next community party which will be given at the Ben Arnold School March 16.

Vegetable Laxative Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a *gentle persuader* for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative", that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.

MUST GIVE UP TRADE AND LANDS

The price of peace from the German point of view was released to the world Friday morning by foreign minister, Ribbenthrop.

As Under-Secretary of State Welles reached Berlin and on the day in which the European war had reached its 6th month, the Ribbenthrop statement was regarded as significant and put an end to any hope of peace.

Germany will consider peace negotiations only after Great Brittain has agreed to surrender German colonies and to open up her sea lanes for equal exploitation with the Reich. This means that Germany demands of England that the British empire must give up her world dominions and make way for Germany.

There was no doubt that England would refuse to consider any such plan and hopes for peace were gone.

When spring comes there is apt to be war.

Ribbenthrop said that the German army waits only the word to unleash a destructive military power such as the world have never dreamed and in doing so, Great Britain and France will be totally destroyed and Germany will be victorious.

Miss Bess Lichte entertained the Minus-Two Club on Wednesday night, March 6. All members were present and enjoyed several games of bridge. At the close of the evening, the hostess served a dainty refreshment plate.

Eva Jean Prybysz put up a hard fight to defeat Elmora Messer but lost 6-0, 6-1.

The junior double players, Portia Kruse and Virginia Black, lost their matches to Dorothy Murrell and Billie Swan, 6-2, 4-1.

The senior double matches proved to be the most interesting of the afternoon with Raymond Lesiker and Bruce Laird taking Watson and Holcomb 12-10, 6-2.

In the junior boys singles match, Louis Gohmert lost to Billy Couch, 6-2, 6-2.

May and Barrows, Temple players, won a one set 8-6 match from Copus and Culpepper.

11 British Ships Sunk by Germans

Eleven British ships were sent to the bottom Tuesday and Wednesday by German submarine and airplane activity, it was disclosed today.

ITALIAN PROTEST NOT ACCEPTED BY BRITAIN

Eleven Italian ships have been taken in tow by the British navy and brought into English ports under the terms of the British ban on German exports.

The ships left Rotterdam, Holland, loaded with coal for Italian ports. The British began a ban on German exports and this is the first application to neutrals with as many as 11 ships involved. In all twelve ships were loaded at Rotterdam. One ship remained at large at noon Wednesday, having thus for eluded British warships.

At the same time England sent a note to Italy rejecting the protest over seizure of the Italian vessels.

Little Finland today had inflicted heavy losses on Red troops and thrown the Russian invaders back along the entire front. Severe losses were reported on both sides. The Finns have no troops to replace losses but there was indication outside help was coming to Finland.

On the western front an artillery duel was under way with the front showing signs of activity for the first time in weeks.

The Young People Organization of the Methodist Church attended the Youth Crusade in Hearne Wednesday night. An interesting program was planned with the principal speaker Bishop A. Frank Smith. RUSSIA SAYS AIMS WILL BE ACHIEVED

There was breath taking silence in European capitals today as Finland prepared to answer Russian demands out of which peace may come to the Baltic.

In Moscow the Soviets said they would succeed, that original demands have been modified and all Russian aims in Finland will be attained.

In some quarters there was a tendency to question whether Finland would capitulate to Russia. In the British Capital, Neville Chamberlain, Prime Minister, said England is ready to help Finland in every way possible. Small countries no longer trust the British word and Finland will have to go alone in whatever course she chooses to take, it was agreed.

The fine diplomatic hand of Nazis Germany was seen in the peace proposals. It was certain that Germany will assist Russia in achieving her aims in the Baltic. Meanwhile it was apparent that Hitler wants no war on two fronts and England and France would not think of precipitating a far northern war with Russia unless the Nazis army responded to the Red and thus equalize the withdrawals of men and arms from the western front.

Finland was weighing her answer which was said at noon Monday to be expected hourly.

Sweeden's consent for foreign aid aid to Finland was an upset and it was believed England and France were not prepared. England, it was said in a Sunday summary has agreed to let France do the fighting in Finland—if any allied aid is given. That it typically the British way.

Japan and Russia were reported reaching an agreement, the nature of which was not clear. It was believed this agreement would preceed a clear declartion of Russian help for Germany.

SMALL NATION FALLS BEFORE DICTATORS

A news flash from Stockholm shortly before noon Tuesday said that Finland and Soviet Russia will sign a peace agreement Wednesday morning and that hostilities in the Baltic will cease immediately.

An agreement over terms of peace was said to have been reached early Tuesday but the contents of the agreement were not available. While the agreement was reached, the armistice was not signed, but Stockholm reported all hostilities would end early Wednesday when the two countries formally place their signatures to the treaty.

France's Deladier told the French Chamber of Deputies early Tuesday that an expeditionary force of 50,000 men were ready to board British transports for Finland, if the Finns request aid.

The world was not impressed by the French and British gesture. It was agreed it came after peace had been agreed to and was in the main a face saving declaration. In London the British government indicated that Finland had been informed the Anglo-French allies would not feel responsible for Finland after the war is over if the terms of peace with Russia left her without national soverignty.

The fact that the Finns have agreed with Russia seemed to assure London and Paris that the terms laid down by Russia were not as severe as first reported.

All nations agreed today that the ending of the war is a German and Russian victory and another small nation has been wiped from the map of the world. Russia will now be able to move into the Baltic and Germany will receive aid from the Soviets not possible while the Reds were involved in Finland.

ITALIANS WILL TAKE COAL FROM ENGLAND

Possible Italian co-operation with England and France in the present European war was believed in evidence when it became known that Italian ships were receiving cargoes of British coal preparing for shipment to Italy.

England seized 14 Italian ships and confiscated their cargoes of German coal. The Italian government protested, but nothing more. It was believed the British and French had won signal victory in their ban on German exports.

There was a rumor in Europe today that Sweden was preparing to resist even by arms all foreign aid to Finland. This could not be confirmed. If true, it would be in fear of war spreading to the Baltic or due to German and Russian pressure.
